

CONVERTS FRONT-LINE
AMBULANCE STRETCHERS
INTO MEDIUM DEPENDENCY
CRITICAL-CARE STRETCHERS

ADAPTER +

The Adapter+ is a flexible, critical care conversion kit, which securely stores life saving equipment during road transfer. Designed to convert standard Stryker® Power-PRO TL and Stryker® Power-PRO XT ambulance stretchers, into medium dependency critical care stretchers. Crash tested to BS EN 1789, the Adapter+ enables ambulance teams to accommodate a wider variety of patient care needs.

FEATURES:

- 1 Equipment Pole with I.V. Hook**
Telescopic poles with 2 locations for fluid bags - maximum weight 10kg.

- 2 Equipment Bridge**
Houses medical equipment up to 15kg, such as a ventilator and patient monitor.

- 3 Medi-Rail Assembly**
Secures vital equipment to the side of the stretcher, weight limit 10kg.

- 4 Pole Mount**
Secures the Adapter+ kit to the stretcher.

- 5 Cylinder Tray**
Holds up to two D or CD size cylinders.
