

TRANSPORTER INFINITE™

The Transporter Infinite™ is a critical care transfer trolley designed to accommodate paediatric and adult patients. Each Transporter is designed to the specific needs of the clinical team and can house a wide range of critical care equipment. With the option to incorporate an independent on-board emergency power supply and mains charging unit, medical devices can be charged during transfer.

Durable and flexible in its design, the layout and positioning of critical care equipment can be customised through our **bespoke design service**, enabling medical teams to work directly with our R&D Team, to configure the medical equipment layout to meet their precise requirements.

KEY BENEFITS:

- i** Ultimate flexibility in framework and equipment configuration
- i** Greater versatility for transfer teams
- i** Easy to manoeuvre
- i** Compatible with two-part ambulance floor locks

FEATURES:

- 1 Framework**
Constructed from lightweight, high strength aluminium. Assembled with precision machined components.
- 2 Back Rest**
Fully adjustable up to a 70° angle, from lying flat to upright position.
- 3 Side Arms (optional)**
To protect the patient and keep in position, can be lowered for access and create more room for the patient if required.
- 4 Leg Raise**
Elevates the legs above the heart to improve blood circulation. Operated with ergonomic pull handle system.
- 5 NEW Adaptive Lock - compatible with two-part ambulance floor locks **PATENT PENDING****
Secures and locks the Transporter Infinite™ into a road ambulance, reducing movement.
- 6 Anti-static Castor Wheels**
360° swivel, with foot brake. Robust, yet soft enough to reduce vibration.
- 7 Directional Lock**
Prevents wheels from rotating, improving overall control and safety when unloading from an ambulance.

INCUBATOR COMPATIBILITY:

- ✓ BabyPod II

Various equipment configurations available.

ACCREDITATIONS & SERVICES:

- ✓ ISO 13485: Medical Device Quality Management
- ✓ ISO 9001: Quality Management System
- ✓ Aftersales, Health Check & Repair (additional cost)
- ✓ FEA - Simulation tested solutions

INCLUDES:

- ✓ Bespoke Design Service
- ✓ Full technical manual
- ✓ 1 year warranty
