

## VOYAGER FLIBEX<sup>®</sup>

The Voyager Flibex<sup>®</sup> is the complete transfer chair, providing a safe method of assisting a passenger with access barriers to embark and disembark an aircraft, boat or train. The Voyager Flibex<sup>®</sup> can also be used to transfer the passenger into and out of their seat and up and down stairs. It can be easily deployed to evacuate a passenger in an emergency.

The transfer chair navigates narrow aisles, stairs, and walkways, due to its compact, foldable design, also allowing it to be stored with ease.

The Voyager Flibex<sup>®</sup> offers the complete solution to provide an inclusive means of travel for everyone.

### KEY BENEFITS:

-  Easy to use
-  Two to four persons ascent and descent operation
-  Suitable for horizontal transfers
-  Provides emergency evacuation assistance
-  Lightweight and compact design
-  Compatible with both Airbus A380 and Boeing 777 fleets

### FEATURES:

- 1 Telescopic extendable handle with dual grip**  
For comfortable and safe operator positioning and control.

---

- 2 Framework**  
Lightweight construction, using high-strength aluminium and titanium.

---

- 3 Adjustable passenger straps**  
For passenger safety.

---

- 4 Removable, padded seat and backrest**  
For enhanced passenger safety, whilst being easy to wipe clean and maintain.

---

- 5 Foldable armrests**  
Enabling sideways transfer to/from the Voyager Flibex<sup>®</sup>.

---

- 6 Adjustable brake**  
To control the ascent or descent for varying passenger payloads.

---

- 7 Rear wheel brake**
